Inclusions
All

Service Areas

Family Services | Legal Assistance and Information Services

The Family Relationship Centre is a free service providing information about family relationships at all stages, and helping couples agree on parenting arrangements, such as private child support, property and financial division, parenting plans and more.

Our goal is to keep families out of court by setting up a mutually agreed way of operating as co-parents in a two-home family.

The Family Relationship Centre services the Wide Bay region and provides outreach services to Hervey Bay.
