Community Clubs and Interest Groups

Counselling Referral and Support

Health Services

Information Services

Mental Health Services

Volunteering

Welfare Assistance and Services

Fraser coast based community organisation, intent on raising awareness of local events about suicide prevention, mental health, wellbeing, suicide prevention training and other relevant issues.

FCSPN is not a support service, however members can assist people in sourcing suitable services, with information and referrals.

Collaboration between the network, local community, community organisations and larger organisations, is the main focus. FCSPN is essentially a community working group, who's motto is 'A Community United Towards the Prevention of Suicide'.

New members are welcome.
