All genders

The Financial Wellbeing and Recovery Program (FW&R) can help you build a bright financial future.

Specifically for Queenslanders who were negatively impacted by rainfall and flooding associated with the Central, Southern and Western Queensland in 2021-2022 including: ex-tropical cyclone Seth, SEQ Rainfall, SEQ flooding and Southern Queensland events. (If you were not negatively impacted by this weather event please still contact us as we may still be able to assist or refer to another team within Good Shepherd Australia New Zealand).

FW&R is a tailored program to suit your needs. Good Shepherd now offers a local service committed to providing support to individuals and families to engage with and improve their financial wellbeing and resilience.

This is a joint initiative between Good Shepherd and the Queensland Government.
