headspace Maryborough provides free health and community services for young people 12-25 years old on the Fraser Coast. We are an inclusive service and do not discriminate regardless of race, cultural background, religion, sexual orientation, gender, or disability.

We provide support for mental health, general health, drug and alcohol issues, and vocation and education support. With the help of its dedicated youth friendly staff of Psychologists, Counsellors and Intake & Access workers, headspace Maryborough has been designed as a one-stop-shop for young people seeking help or advice for any of their concerns.
