0-12

Service Areas

Education Services

Choosing to educate your child in a small school presents with it many benefits. Small schools have a warm and friendly environment where everybody knows each other and it is the strength of those relationships between students, staff and parents that contributes to positive learning experiences and outcomes. Mungar State School is very proud of the open and trusting relationships we have with all key stakeholders and this is no more evident than with our very active and productive P&C Association.
