Project SEARCH is open to young adults aged 17 – 28 years, with NDIS funding.

Internships on the Fraser Coast are held at St Stephen's Hospital (Hervey Bay)

Programs are tailored to each intern, designed to maximise their potential by placing them within functions and roles matched to their skills and long-term employment ambitions.

Interns attend the workplace 5 days a week (Monday - Friday) for 6 hours a day, actively engaging in all aspects of the team and work environment, receiving coaching, feedback and ongoing support at every stage.
